

AICERTIFY.IN INTERNAL CORPORATE POLICIES

Document ID: AC-HR-2026-V1 | Effective: July 2026

1. AI Ethics and Responsible Conduct Policy

All employees at must adhere to strict ethical baselines when designing, testing, or deploying automated verification engines. It is strictly prohibited to utilize unvetted or open-source foundational models containing restrictive commercial licensing within our core evaluation pipeline. Any experimental model testing must be logged inside the centralized Model Inventory Registry before code review submissions.

2. Professional Development & Certification Reimbursement

To maintain our competitive edge in AI auditing, full-time employees are eligible for up to ■1,50,000 annually in continuous education reimbursements. This covers accredited machine learning certifications, data privacy compliance courses, and registrations for tier-1 global AI research conferences. Applications must be submitted through the internal learning portal at least 30 business days prior to the start of the course.

3. Travel and Expense Reimbursements

When traveling to enterprise client sites for on-premise deployment audits, standard economy class must be used for domestic flights under 4 hours. Lodging expenses are capped strictly at ■8,000 per night in metropolitan hubs unless an explicit high-cost tier waiver is signed by the finance department head. Itemized receipts are mandatory for all claims exceeding ■500.
